PROFILE

I'm a motivated Software Engineering student with experience in web and application development. Good at JavaScript, Node.js, databases, and modern UI frameworks. Eager to apply technical skills to real world projects and continuously improve as a developer.

EDUCATION BACKGROUND

BACHELOR DEGREE OF COMPUTER SCIENCE | SOFTWARE ENGINEERING

Cambodia Academy of Digital Technology (CADT)

Feb 2024 — present

EXPERIENCE

Mobile App Developer - School Project
NisitTrade: University Marketplace

Team Leader | Oct 2025 — now

- Developing a peer-to-peer marketplace mobile app for university students
- Integrating the mobile app with a custom RESTful API to handle authentication, product listings, user data, and transactions.
- Leading a team to translate Figma designs into functional app screens

Web Developer - School Project
QuickStock: Inventory Management System

Team Leader | Jun 2025 — Jul 2025

- Built a full stack inventory management system with role-based access (Admin & Supplier)
- Developed RESTful APIs using Node.js, Express, and MySQL
- Designed responsive dashboards using React, Tailwind CSS, and Zustand
- Implemented secure authentication with JWT and bcrypt
- Managed products, supplier accounts, and transaction records

Agile Project Management - School Project

Srum Member | Apr 2025 — Jun 2025

- Collaborated using Scrum methodology in a team environment
- Defined user requirements and system requirements
- Worked on SN Mobile app & Cashier management system

Database Design & Analysis - School Project

Team Member | Apr 2025 — Jun 2025

- Designed Entity Relationship Diagrams (ERD)
- Performed database normalization and wrote SQL queries using MySQL Workbench
